

Choice Logistics Announces Strategic Relationship with NCE Group

NEW YORK, NEW YORK – May 31, 2016 – Choice Logistics CEO Michael Katz announced today that the company has entered into an agreement with NCE Group to provide embedded screen/repair and other technical services at Choice Logistics distribution centers worldwide.

The new offering will enable Choice Logistics and NCE customers to enjoy the benefits of an accelerated supply chain and disposition of product returns at a lower cost than previously available.

"We're pleased to offer NCE's industry leading repair and recovery services to the Choice Logistics network," Katz said. "This move will reduce downtime and result in lower inventory and transportation costs for our customers."

The cross selling agreement provides both companies with an opportunity to offer the complete portfolio of Choice Logistics' forward and reverse logistics solutions, along with NCE's repair, onsite hardware maintenance, technical support, and value recovery services.
